Elektrik İnşaat Çelik Taahhüt San. ve Tic. A.Ş.

“Our mission is to take all responsibilities of our task and support our customers from paper to reality.”

Company Presentation

ŞAH lighting has invested more than 17 years researching and testing lighting technology implementation in any outdoor illumination and more in sports area lighting.

Since the creation of the company we engaged in many and various projects in Street lighting, sport areas, parking lots, park, shopping centers, ports and airports etc... providing quality in the design of our solution to make our Customers experience

the highest quality of light, with a minimized spill light and glare and the precise science of light control make them comeback with other different projects.

At the same time, ŞAH lighting manufactures and offers poles that meet the highest manufacturing standards. Because of our focus on the structural and engineering integrity of our poles, we have never had a single failure in any of our thousands of installations.
